Inquiry: (1) How can I get a copy of confirmation that we may do electrolyte analysis, along with blood gas analysis? (2) Do you have any guidelines regarding how to go about billing for the electrolyte by the RT Department?

Response: Please refer to Business & Professions Code Sections 1206 and 1206.5 (copy enclosed) for confirmation that licensed respiratory care practitioners (RCPs) are authorized to perform clinical laboratory tests or examination that are classified as "waived", "of moderate complexity", and/or "of high complexity", under the Federal Clinical Laboratory Improvement Amendments (CLIA) of 1998.

The policies for reimbursement for any services provided by a respiratory care practitioner are set by the payor. The RCB suggests that you contact the specific payor to clarify this matter.
